## ABOUT ILAS

The **International Lighting and Automation Summit** is set to redefine the future of illumination and intelligent design. Curated by industry visionaries and global thought leaders, this landmark event is where innovation meets collaboration—bringing together the brightest minds shaping the world of architectural and professional lighting automation.

Designed as a hub of thought leadership and discovery, the summit opens its doors to top lighting consultants, designers, electrical experts, architects, interior designers, developers, contractors, manufacturers and distributors. It's more than a conference—it's an immersive experience that fosters knowledge-sharing, networking and the unveiling of next-generation lighting solutions.

Revolutionizing how we design, control and experience light, this summit becomes the stage for breakthrough technologies, trailblazing ideas and transformative conversations.

Hosted in the vibrant cities of Mumbai & Delhi, the International Lighting and Automation Summit will spotlight renowned international lighting designers, leading architects and industry dignitaries from across India & The Globe. Together, they will ignite dialogue, spark innovation and celebrate the brilliance of what's next in lighting automation.

## WHO WILL ATTEND THE SUMMIT WILL HOST AN EXCLUSIVE GATHERING OF:

**Visionary Lighting Designers & Consultants** –  
Pioneers shaping the future of architectural and professional lighting.

**Electrical & Automation Specialists** –  
Experts driving innovation in integrated, intelligent systems.

**Renowned Architects & Interior Designers** –  
Creators who blend design, technology, and human experience.

**Influential Developers & Contractors** –  
Decision-makers spearheading large-scale projects and smart infrastructure.

**Global Lighting Manufacturers & Distributors** –  
Industry leaders showcasing next-generation products and solutions.

**Policy Makers & Industry Dignitaries** –  
Voices influencing the future of sustainable, smart lighting ecosystems.

## IN CONVERSATION WITH EXPERTS OVER THE YEARS

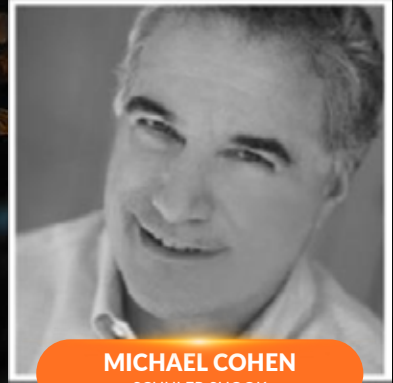

With participation from top lighting designers, renowned architects, leading association members, electrical and automation experts, developers, and industry pioneers, ILAS fosters an unparalleled environment for knowledge exchange, collaboration, and networking.

# THE LEAGUE OF GAME CHANGERS

**Sune Arvad:  
Kristensen: Louis  
Poulsen Lighting**

We as manufacturers have a responsibility to provide the designers in the market with products that can reproduce quality of lighting.

**Bo Steiber:  
Bo Steiber Lighting Design**

If I understand correctly this is the second year going. I think that it's a very good start. India is obviously a very emerging market when it comes to lighting design and I think that the initiative that they've taken to put this together, and the quality of the speakers, is very encouraging. I think at this stage it's been very well planned and it's promising for the future.

**Kathy Abernathy:  
Abernathy Lighting Design**

It was indeed an honour. It was an excellent day on learning about lighting designs, the quality of light, energy saving sustainability. I want to personally thank Acetech as well as the sponsors.

**Nancy Clanton:  
Clanton & Associates**

The experience has been fabulous. What I enjoyed the most is some of the statements such as we need to mentor younger lighting designers or even, what is the culture? What's lighting for India? Verses people around the world coming and saying to India "this is what you should be doing". I really enjoyed the speakers and all the experience they have brought to the whole summit.

**Richard Taylor: ERCO**

This is really impressive considering that it is only the second time the lighting summit is actually taking place. I am very happy to be here with ERCO and ERCO obviously participating in many different aspects in exhibition and also in conference so really my privilege. Looking at the speakers and the content and the audience, it's excellent. Good

**Charles E Israel:  
Lighting Design Alliance**

The whole idea is about using lighting as a design tool and that's what's really important. Lighting is not a commodity. What everybody really needs to do is to go back and to almost close your eyes and envision what the space should look like. What are the emotions you are trying to create? What is the future of lighting? It's not really one light source or another. Those are just tools that we have to use

# EXHIBITOR OPPORTUNITY

At ILAS, exhibitors have a unique platform to showcase their products, lighting solutions, and automation designs through smart, experiential displays that truly demonstrate the power of light in shaping intelligent environments.

Beyond display opportunities, brands can also engage directly with top architects, designers, consultants, and developers by hosting sponsored lunches and high teas across the two days, creating valuable touchpoints for networking and brand visibility.

This is more than an exhibition—it's an immersive brand experience that connects innovation with influence.

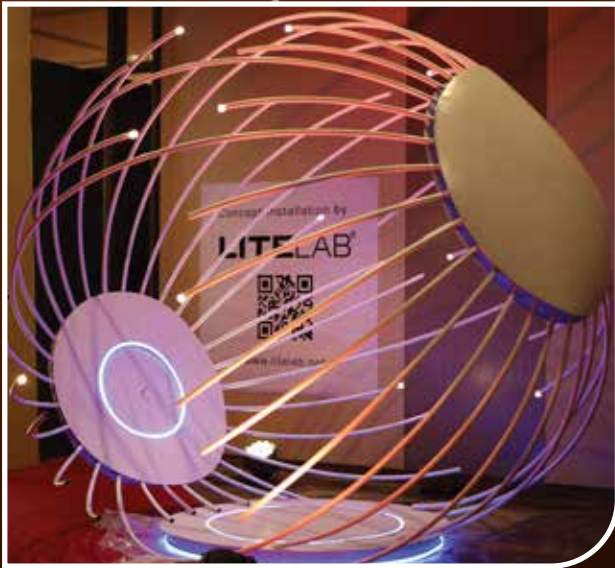

# PAST GLIMPSES - AWARDS & NETWORKING

# LIGHTING INSTALLATIONS

Iconic lighting installations by leading designers from India and around the world. These installations go beyond aesthetics—they demonstrate how light can shape spaces, transform emotions, and redefine experiences.

From artistic storytelling to cutting-edge technology, each installation is a celebration of creativity, innovation, and the boundless possibilities of illumination.

## EVENT HIGHLIGHTS

- **CONFERENCE**

Gain strategic insights from Indian and international experts driving innovation in lighting and automation.

- **SHOWCASE OF EXCELLENCE**

Benchmark installations that set new standards in lighting design and technology.

- **ACE LIGHTING PAVILION**

The Ultimate Destination for the Space & Time Revolution Explore the lighting and design industry's source with brilliant solutions, committed to providing dazzling, yet highly functional, streamlined lighting solutions and an experience of all-around luminosity.

- **EXPERIENTIAL LIGHTING DISPLAYS**

Discover interactive, project-focused demonstrations that reveal how lighting automation adds measurable value to design and development.

- **HIGH-VALUE NETWORKING**

Build partnerships with top consultants, developers, architects, and global industry leaders.

- **FUTURE-READY SOLUTIONS**

Uncover cutting-edge, sustainable, and intelligent lighting concepts shaping tomorrow's environments.

- **FUTURE-READY SOLUTIONS**

Uncover cutting-edge, sustainable, and intelligent lighting concepts shaping tomorrow's environments.

- **NETWORKING & COCKTAIL EVENING**

Celebrating the industry's most innovative products and designs introduced followed by networking cocktail evening.

Be a part of the business extravaganza that leads to invigorating conversations and business growth with industry influencers.

# MARKETING PLAN

## ONLINE MILEAGE

- Social Media Updates
- EDM
- Influential Marketing

## PRINT MEDIA

- Magazines
- Print Collaterals

## ONSITE MILEAGE

- Venue Branding
- Announcements

# SPONSORSHIP

## • TITLE & PREMIUM SPONSORSHIPS:

- Title Sponsor – “ILAS presented by [Brand]”
- Powered By Sponsor
- Co-Powered By Sponsor
- Associate / Co-Sponsors
- Delegate Sponsor

## • KNOWLEDGE & CONTENT SPONSORSHIPS:

- Session Sponsor (branding + speaking opportunity in a key panel)
- Workshop / Masterclass Partner
- Keynote Sponsor

## • EXPERIENTIAL SPONSORSHIPS:

- Experiential Lighting Display Partner (immersive brand showcase)
- Installation Zone Sponsor
- Innovation Lab / Tech Showcase Partner
- Experience Lounge Sponsor

## • NETWORKING & HOSPITALITY SPONSORSHIPS:

- Culinary Sponsor
- High Tea / Coffee Break Sponsor
- Networking Evening / Cocktail Sponsor
